"Canadians" Hold Annual Meeting Appoint Officers For Next Season

H. C. McBurney New President and Frank G. Creegan Team Manager—Will Stage Carnival.

Following a very fine banquet at the Grand Union on Friday evening, the annual meeting of Coleman Canadians heard the financial report for the past season, showing that the club received \$1,940.72 revenue, and after paying accounts has a small surplus carried over.

The officers for 1935-36 are: H. C. McBurney, president; G. Kellock, hon. president; Dr. McLean, vice-president; Frank G. Creegan, team manager; W. L. Rippon, business manager; G. Devine, J. C. Pratt, R. F. Barnes, executive committee; J. Kwasney will be coach, in addition to playing next season, having been reinstated in amateur standing after playing professional hockey for a few seasons.

A vote of thanks was passed to Past President Creegan and Secretary Robert Pattinson for their good service, and the latter was appointed secretary pro-tem. W. Gate was also accorded a vote of thanks for his services as referee.

Jack Kwasney handed out some good advice and with the addition of three new players said he looked for better results next season.

Addresses were made by Dr. McLean and J. A. McLeod, and Bill Fraser spoke for the players, expressing appreciation for the support accorded the team.

The rink committee and the hockey club will co-operate in a carnival to be held June 15 and 17, proceeds to be divided on a percentage basis. Further particulars of this will be announced in The Journal.

H. C. McBurney in a short address praised the team for their record in the season just closed, and welcomed the new players.

A discussion took place on accident insurance, but nothing definite was decided. It was suggested that the club bear one-third of the cost, the club to bear a share of the cost, and the players a share.

HOME WORKSHOP CLUB MAKES MANY THINGS

Those interested in the above club saw a demonstration of four power tools at the meeting on Thursday. The lathe, circular saw, moulding cutters and jig saw were used, as well as a drill press, for making an ornamental table. Frank Graham and Edgar Reid were the master demonstrators, while George Graham executed some of the fancy cutting. It has been suggested that the club hold an exhibition of their handicraft later in the year, to show what they can accomplish.

IN AID OF CANCER FUND

The Canadian Legion date to be held on May 6 will be in aid of the Silver Jubilee Cancer Fund. Tickets will be on sale at 50c. Victoria Rebekah Lodge is putting on a whist drive on Saturday for this purpose, and quite a number of people have sent in donations direct to the fund at Ottawa.

Dr. Borden last week at a meeting held to organize a concerted effort spoke briefly on the necessity of public support for this purpose, and cited the need for research work to combat the spread of this disease.

Principal Hoyle stated the school staff was ready to assist in the campaign.

In a pamphlet issued by the Mine Workers Union of Canada the statement is made that Hillcrest, Maple Leaf and Bellevue mines have been closed. As these mines have been working and no intimation has been made of their closing down, the pamphlet has caused a lot of misunderstanding and false rumors.

In connection with the proposed demonstration of school children on May 6, to celebrate the silver jubilee of King George V, Harry W. Clark recalls that 28 years ago, on the King's ascension, he was marshal of the school parade, when the children marched to the park, saluted the flag, and were addressed by prominent local men.

Easter

The Season of Gladness

Bringing New Hopes and Renewed Ambition

Spring is in the air—the urge to do things is uppermost. Let every Coleman Citizen determine to do something worthwhile. Life is happier through hope, and Easter symbolized Victory.

The Churches

ST. ALBAN'S CHURCH NOTES

This week being Holy Week, the services will be as follows: Thursday: 10 a.m. Holy communion. Good Friday: 10 a.m. children's service. From 12 to 3 p.m., three hour meditation. Both these services will be in charge of Rev. H. Phipps Williams, B.A. of St. Mary's, Lethbridge. Easter Day: 7.30 a.m. Holy communion; 11.15 a.m. Holy communion. 2.30 p.m. children's service. At this service the children will make their Lenten offering.

UNITED CHURCH

Sunday, April 21, services in St. Paul's United church will commemorate the great glad fact of the Resurrection. Music in keeping with the thought of Easter will be rendered morning and evening. The minister will deliver messages appropriate to the occasion. At the morning worship the Sacrament of the Lord's Supper will be administered. All members and friends are most earnestly requested to be present. The Sunday school will meet at 12.30.

Make these Easter services a time of spiritual renewal and rejoice in the great and liberating truth of the Resurrection. Strangers and visitors will be made welcome.

MISCELLANEOUS

The annual convention of Alberta Education Federation will be held in the Macdonald Hotel, Edmonton, during Easter week.

Rudolph Kwasney, injured in the hockey game at Lethbridge, expresses through The Journal his thanks to the players and "fans" for the support given to the benefit game in his behalf. Their help was greatly appreciated.

Boy Scout and Girl Guide Notes

Coleman Troops

Will those intending to take the special train to Calgary on Easter Monday please note that the train will leave at 8.30 a.m., not 9 a.m., as previously announced. There are still a few tickets left and any person desiring one may get it from Mrs. R. P. Borden.

The rug on display in Jean Pattinson's store will be raffled on Thursday evening in the store.

Salvation Army

Officers: Capt. H. F. Hotvedt and Lieut. F. J. Weir. Sunday school at 3 p.m. and Salvation meeting at 7.00 p.m. Weekly young people's meeting on Friday nights at 7.30. Good Friday we are showing pictures on the life of our Lord Jesus Christ, 10c admission to cover expenses. Every body welcome and we are praying that these slides will remind you what Jesus has done for you, and what have you done for Him?

Now that spring is here and every body is cleaning up for summer, getting everything in the latest furniture that goes to make your home more "homey"; and you are worried as to what you are going to do with your old piano or organ, may we suggest that you give it to your local Salvation Army Corps. We have a great number of young people coming to our Y.P. meetings and you could help us in helping them by donating your instrument to us. We thank you in anticipation. — Your local officer, Capt. H. F. Hotvedt.

Returned From the North

Last week Harold Reid arrived in Coleman after spending several months at Two Brothers gold mining camp in northern British Columbia, of which an interesting story by James McCook appears in the current issue of Maclean's Magazine, and whom Harold met when he was gathering material for the story. Recovery of the gold is made by dredging, and equipment and supplies were taken in by airplane from the nearest point on the Canadian National Railway. Before returning here he spent a holiday in Vancouver, after his pioneer experiences in the wilds.

See the General Electric combination electric range at Sentinel Motors, the last thing in kitchen efficiency and on terms which enable you to pay as you use. A boon to every housewife.

Swift's Campaign

Attention is called to Swift's dealers' advts. on special page, viz: Ledieu's, West End Meat Market, W. M. Gate, Henry Zak, Coleman Co-Operative Co., N. Burntrock.

Lewis Brown and Gerald Clarke were injured at International mine, Saturday, the former receiving two fractures to his leg while Clarke was allowed home after receiving medical attention to a badly cut leg.

JOURNAL ADVERTISERS are dependable merchandisers. Read their ads. for special offerings for Easter. Shop through the well displayed announcements of enterprising retailers whose aim is to give value and good service.

SCOTTISH PLAYERS

WELCOMED

The Scottish Musical Players presentation of "A Highland Love Song" did not compare as favorably as previous plays given by this talented company. The musical numbers were inspiring and were accorded liberal applause, but the play as a vehicle for expression of their talents did not give them the scope such as "The Cotter's Saturday Night" and similar plays previously seen. Another factor which always has an effect on players was that the weather cut down the attendance to less than a third of previous records. The heavy snowfall prevented many from a distance from attending.

A pleasing feature of their visit was the splendid hospitality of Mr. and Mrs. William Fryde, who were hosts to the entire company at a supper at their home following the close of the performance.

Mr. Bell of the Grand Union placed his car at the disposal of the company during their visit, thereby saving them the discomfort of walking around in the heavy snow. From here the company proceeded to Calgary, and following a week's engagement there will proceed eastward along the main line of the C.P.R. after a two nights' engagement at Drumheller.

Farewell Concert to General Manager Whiteside, Supt. McLeod, Thurs.

Employees of International C. Will Honor Departing Officials at a Smoker in Community Hall

To honor O. E. S. Whiteside, retiring general manager of International Coal & Coke Co. Ltd., and Supt. J. A. McLeod, who will take over the general management of the Cadomin Coal Co., all employees of the company will gather in a goodwill smoker this evening (Thursday) when suitable presentations will be made. Mr. Whiteside completes nearly 28 years of service, while Supt. McLeod has been with the company since 1925.

TO RETAILERS

Customers that are yours, that might be yours, that should be yours, are readers of The Coleman Journal. Advertise in the paper that is read by every worth while potential customer. The force that has built up other's business, will do the same for yours.

Mounted Police on Duty

A mounted troop of the Royal Canadian Mounted Police arrived this morning to prevent demonstrations of strike sympathisers from the Alberta side of the interprovincial boundary proceeding into Corbin, B.C. The situation at Corbin this morning was quiet, and the tippie was working, manned by the company staff.

Siam Bays Fighting Craft

Secures Speedy Motor Torpedo Boat From Great Britain

Siam has bought from Great Britain the world's fastest warship—or so it is claimed to be. She is one of the new motor torpedo boats carrying a crew of five, two 18-inch torpedoes, two depth charges, four Lewis guns and the last word in smoke-screen laying apparatus. On a trial run she developed a speed of just over 42 knots—or rather more than 50 miles per hour. The ship will carry a crew of five, and is designed for coastal work with an average cruising range of 300 miles. Quite a useful little craft, and Siam is to purchase two more of them. Of course, they are not new. The Royal Navy had them at least three years ago. Then they were very much in the mystery-ship class, and a guest in one of His Majesty's ships for dinner one night, got severely snubbed when he asked questions about them. The navy was not giving away any secrets then. From which it may be safely presumed that, as they are now selling this craft to foreign powers, they must certainly have a newer and more improved model "up their sleeve."

AT 62—IN BED WITH RHEUMATISM

At 65—Working Again

Why worry about rheumatism? This old fellow had it almost as bad as it could be. But he just found the right remedy, stuck to it, and now he's working again—at 65 years of age.

Let him tell you all about it: "For two years and a half," he writes, "I have suffered from rheumatism. For eighteen months I could not get over in bed, nor help myself in any way. My legs and feet were swollen, and I could not sleep or get any rest until I started taking Kruschen Salt. After taking one bottle, I went about on two canes. I kept on taking it, as I found the pains were leaving me. I have taken six bottles, and am now 65 years of age and never again feel the pain. I have taken six bottles, and am now 65 years of age and never again feel the pain. I have taken six bottles, and am now 65 years of age and never again feel the pain."

Do you realize what causes rheumatism? Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs.

Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs. Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs. Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs.

It was indicated the heavy pistols used by the Russian guards on the Pungchow were too recently drawn quickly. The British-owned company has now announced the guards on its vessels will be increased 50 per cent. and be supplied with weapons which can be brought into action promptly.

Manitoba Government Authorities Large Sum For Hydro Extension

The third session of the 19th Manitoba legislature has prorogued, Lieutenant-Governor W. J. Tupper giving royal assent to 56 bills passed during the last few days of the session. Among bills given royal assent for total expenditures of \$14,088,000 during the next fiscal year, and authorization for a capital outlay for Manitoba hydro extensions over a large area.

Enabling legislation making Manitoba the first province in the Dominion to take steps to provide pensions for blind persons also was approved.

Proof Enough

Traveler—Yes, gentlemen, I was unarmed and the ferocious beast sprang right at me. I heaved a bucket of water in its face, and to my great relief it slunk away. Listener (after prolonged silence): It's true, boys. I met that tiger half an hour afterwards, stroked his whiskers and they were still wet.

Experiments have showed that sweet corn loses its sweetness six times as fast kept at 86 degrees Fahrenheit as at 32.

China is to have an exchange transactions tax.

Little Journeys In Science

THE STRUGGLE TO LIVE

(By Gordon H. Guest, M.A.)

Every plant and animal is exposed to the variable conditions of the organism must successfully contend with these conditions in order to remain alive. No two plants or parts of plants are exposed to exactly the same living conditions and a plant meets its particular conditions either by dying, or by adapting itself to them.

The tree withstands the cold by stopping its active growth, hardening its tissues and dropping its leaves. Many herbaceous or soft-stemmed plants meet the cold by dying to the ground and withdrawing all life into the root parts. Some plants combat the cold by dying outright, and providing thousands of seeds to perpetuate the kind next season.

Plants adapt themselves to light by growing towards it; or by hanging their leaves in such a position that they catch the light. In less places they increase their leaf surface, or greatly lengthen their stems so as to overtop their fellows, as do trees and vines.

The struggle for existence and adaptation to conditions are among the most significant facts in nature. The sum of all the conditions in which a plant or an animal is placed is called environment. Environment comprises the conditions of climate, soil, moisture, exposure to light, relation to food supply and contention with other plants or animals. The organism either adapts itself to its environment or else it weakens and dies.

The plants that most perfectly meet the conditions in which they are placed are able to persist, and they perpetuate themselves. Their offspring usually inherit some of the characteristics which enabled them successfully to meet the battle of life, and the fit, that is those best adapted to their conditions, tend to survive.

Adaptation to conditions depends on the degree to which organisms were perfectly invariable, that is, all exactly alike, they could not meet new conditions. Conditions are never perfect for every organism and it is impossible to picture a perfectly inflexible and stable succession of plants or animals.

Man has modified plants and animals for his use. All our common domestic animals, very unlike their original ancestors, and our common and low-cultivated plants have varied from their original type.

By selecting seeds from a plant that pleases him, the plant breeder can produce a common type of a number of plants more or less as he desires them. From the best of these, he may again choose; and so on until the race becomes greatly improved. This process of continuously selecting the best is known as selection. A somewhat similar process goes on in wild nature, and it is then known as natural selection.

Why Your Head Aches

Too Much Air In Ventricles According To Science

Does your head ache? Then there's too much air in your ventricles—tiny little spaces within the brain connected to the spinal canal.

Science has ascertained, Dr. Frederick Tilney told the New York Academy of Medicine that headaches are apt to occur when air gets into the third and lateral of these little spaces.

Hyper-sensitive persons may derive a headache from consuming milk or eggs, sugar and other foods. Dr. Alexander Lambert told the symposium. Excessive smoking may bring pain to another. Some persons get a headache from coffee, others may use coffee to cure the same ill.

Collects First Payment

Prince Sudhodaya, Siam's abdicated King Prajadhipok, collected the first payment on insurance which he took out several years ago against the loss of his throne. Weekly payments from French and British firms will give shrewd Sudhodaya about \$40,000 a year for the rest of his life.

Taking pictures of heat to read temperatures that thermometers cannot reach was recently described. For practical purposes it reads the insulating power of wood.

Population Readjustment

Many Families Returning To Farming Occupation Throughout Dominion

"A great readjustment of population is taking place throughout Canada, and the return of families back to farming occupation will, I am sure, have a beneficial effect upon unemployment conditions," stated Dr. W. J. Black, of Montreal, director of colonization and agriculture for the Canadian National Railways, in an interview at Winnipeg.

The offices of the company in the Western region handled close to 5,000 land enquiries in 1934. From these enquiries it has developed that 935 families from other parts of Canada, United States and drought areas were placed upon 117,939 acres of land. Our district offices also co-operated very closely with the provincial governments under the Dominion-provincial subsidized back-to-the-land schemes," Dr. Black said.

"In the three prairie provinces 822 relief families in addition to the centres to farms, making a total of 1,757 families returned to the primary industry."

"During the last four years our western offices located 5,857 families on over one million acres of land. This readjustment tends to effect a better balance between urban and rural populations."

"Several new settlements were commenced in the northern areas of Manitoba, Saskatchewan and Alberta. These are offshoots of various national and religious parent colonies whose younger generation is anxious to found farm homes for themselves."

A Matter Of Economy

Mass Ceremony In Shanghai Cuts Cost Of Wedding

The Chinese government delivered a telling blow at the high cost of weddings when 57 couples married to the altar together and were married in a simple ceremony, with General Wu-Teh-Chen, mayor of Shanghai, officiating.

Aimed at setting an example of economy to the nation in accordance with Generalissimo Chiang Kai-Shek's "new life" movement, the ceremony was devoid of all the frills and extravagance characterizing the traditional Chinese wedding.

To the labored strains of Mendelssohn's "Wedding March" played by a Chinese brass band, the marriage candidates paraded down the crimson-carpeted aisle while a crowd of 1,200 persons, largely relatives, looked on.

The traditional wedding vows to heaven, earth and ancestors were dispensed with and each marriage was completed in two minutes. The government charged each couple the equivalent of \$7 for the ceremony, the price including the certificate and a gift to the bride.

"Eat More Eggs" Campaign

No Article Of Food More Nutritious Or More Universally Used

Notwithstanding the fact that Canadians, with an annual per capita consumption of eggs of 258, the highest of any people among the countries of the world, the Winnipeg Board of Trade is evidently not satisfied that the people of the metropolis of the prairies are fully conscious of the value of eggs as food. An egg campaign was launched in that city on April 1 to continue for three weeks.

Aside from the commercial importance of eggs, which is very significant in the Dominion, no article of food is more nutritious or more universally used. Ninety-seven per cent. of the edible portion of an egg is digestible, a claim that few, if any, of the other foods can make. It has vitamins A, B, D, and G. It also has mineral elements including sulphur, phosphorus, iron, calcium, and magnesium in easily digestible form.

In 1924, Canadians ate more than 3,600,000,000 eggs, which, if placed end to end, would extend to a distance equal to four times the circumference of the earth. The market value of the eggs produced in Canada in 1934 was about \$30,000,000.

The Dominion was the first country in the world to introduce egg grading in any form. This was done in 1918 for export purposes only at that time. In 1923 egg grading regulations were enacted to apply to domestic consumption and since then has proven to be a decided advantage to both producer and consumer.

BEFORE BABY CAME

Mrs. George Schramm of 128 Stoner Rd., Woodstock, Ont., says: "My strength was almost gone before the birth of my baby. I could not sleep, did not care to eat, and was in a terrible state. Prescription strengthened me so that I needed no more weakness. All ailments, new state, babies 50 cts, liquid 100 cts. Large size, table or liquid, \$1.25.

He: "May I have some stationery?"

Clerk (haughtily): "Are you a guest of the hotel?"

He: "Goodness, no! I'm paying two guineas a day."

When hanging pictures remember that the centre of the picture should be on the level with the eyes. If you are unusually tall, this rule does not hold good.

You And Your Country

Throughout the length and breadth of this Dominion, at public gatherings of every description, banquets, Canadian Club, Service clubs, Board of Trade meetings, political gatherings, school assemblies, etc., men and women lustily sing "O Canada, we stand on guard for thee," while to the south across the line of the 49th parallel our neighbors sing "My country 'tis of thee." In Canada, on July 1st we proudly celebrate the uniting of the several Provinces into one confederation thus creating this young nation, while on July 4th our American cousins rejoice in commemorating the obtaining of their independence.

Both countries to-day, in common with the rest of the world, are facing grave difficulties,—difficulties of an economic character resulting from the Great War and the insane wave of narrow economic nationalism which has since swept over the nations, leading them to think of "my country" only and utterly regardless of the fact,—which should never have been lost sight of,—that in this modern world no country can think only of and live into itself alone.

Now, because these policies of national self-sufficiency, of economic isolation, have failed to work,—on the contrary, have resulted in a stagnation of world trade and loss to all nations and peoples,—and unemployment on a gigantic scale with all its attendant losses and sufferings for millions of people prevail, men and women everywhere are no longer thinking in terms of their country, but are thinking solely of themselves.

As the direct outcome of their personal difficulties, and this thinking of themselves instead of their fellowmen, their community and their country,—in a word, narrow nationalism developed to its ultimate and inevitable end,—men and women are now demanding that, instead of standing on guard for their country, they should do everything for them as individuals. Wrong thinking has brought many people to entertain the idea that, instead of them owing any duty or obligations to their country, the country owes everything to them, and if the country will not or cannot supply all their needs and desires, they are prepared to destroy their country.

All governments the world over are now being asked to do the impossible, because people have forgotten that governments are, after all, but the people themselves acting in a corporate capacity. So it is that, as individuals, people are demanding that their governments shall do for them, and assume burdens and responsibilities on their behalf, which are too great and heavy for the people as a whole to assume and carry, because whatever a government does the people must pay for.

There is a crying need for a reconstruction in our thinking in these trying times; it is absolutely necessary that as a people we give much more thought to fundamentals and less to the incidents of life.

One of these fundamentals is that no person should expect or ask a government to do anything for him that he can possibly do for himself. We create governments not to do things for us that we can and ought to do ourselves as individuals, but only to do those things that single-handed we cannot do, but collectively we can do. What we can do ourselves, we ought to do and must do because we can do it better, more economically and more efficiently, and more to our satisfaction, than any government can possibly do.

A second fundamental is that in order that those things we must rely on governments to do for us in our community or national life can be done, we, as individuals, must supply with means through taxation to enable the government to act. Therefore, one of the first efforts of all people should be to pay their just taxes and pay them as promptly as possible. Unfortunately, a habit of mind has developed to an alarming extent that the payment of taxes is the last thing about which an individual should concern himself or herself. Many people are prepared to pay any and every obligation before their obligations to governments; indeed, many go ahead gratifying their desires and wishes with money which actually does not belong to them, but is rightfully the property of the State,—that is, the property of all the people who compose the community and the nation. So long as this idea prevails, and is acted upon, governments cannot do what they are created to do, are expected to do, and would do if they had the means with which to do it.

Within recent years thousands of people, lacking employment, have received hundreds, and some families over a period of years, thousands of dollars in relief payments to provide them with the necessities of life which in more normal times they provided for themselves out of wages earned. But if they are asked to do a few days or weeks work now to be credited against the advances made to them during these years, many of these people refuse to make payment through the rendering of the service asked of them. Yet they have already been paid for such work at a rate which actually totals hundreds of dollars a week for any work they might now do.

Are they giving a dollar to their country now, or only thinking of themselves? Are they helping their governments to continue to help them, or are they weakening their governments in the efforts being put forth in their behalf.

What is your attitude to your country?

Clever Reporters

The versatility of ship reporters is noted wherever newspapers are published. They swarmed all over a vessel entering New York harbor when they learned a "Barbara" was aboard. Were they disappointed when they learned she was a Canadian girl and not the five and ten princess? Not a bit. They wrote a story about the "comedy of errors."

More than 32,000 people in Canada speak Gaelic as their mother tongue, and of this number over 20,000 are in Nova Scotia, the Dominion bureau of statistics reported.

Pearl divers average about one pearl to a thousand shells they recover.

Nearly 40 per cent. of all college graduates have defective sight.

United Stand For Peace Is Laid Before League Of Nations

Geneva.—A united front for peace rather than a united front against Germany was the keynote in Geneva Sunday night on the eve of the special session of the League of Nations council.

There was censure for Germany, however, in two documents which were made public during the day—one at Stresa where the Franco-Britain-Italy conferences ended Saturday, and one here.

Both the French appeal to the league here and the communique at Stresa are deemed as constituting urgent bids to Germany to participate in binding European peace arrangements. Both, too, are seen here as emphasizing the need for accords that must be lived up to if Europe would avert a reign of force.

The French protest against Germany's repudiation of the armaments stipulations of the Versailles Treaty, made public in full Sunday, refrained from demanding a specific penalizing of Germany.

France's stigmatized Germany's act as a threat to international order and said the league council should "consider the most suitable measures for remedying the situation thus created." France characterized the situation as grave and expected that the league council "will take decision concerning the present state of affairs to safeguard the future."

The prevailing view in Geneva is that while France attacks Germany's action, she leaves the door wide open for negotiations with Germany.

The council is expected to appoint jurists or a council committee to study plans for dealing with any future treaty repudiation.

A series of consultations between delegates of the little entente, the Balkan entente and Russia indicated plans were afoot for further defence measures as a result of Germany's re-armament.

Mystery Story

Legendary Gold Find May Bring Gold Seekers To North Area

Edmonton.—District prospectors in the White Court area, 100 miles from Edmonton, are anxiously awaiting the spring breakup to start a search for the legendary gold find of Moos-tas, ancient Indian who died recently with the secret of the source of his reputed find of a few years ago. Inquiries reaching the district from all parts of Canada as a result of the revival of the mystery story, may bring gold seekers from a distance.

May Build Sugar Factory

Winnipeg.—Negotiations were underway here between Hon. J. S. McDiarmid, Manitoba minister of natural resources and industry, and officials of the American Crystal Sugar Company with a view to establishing a beet sugar factory in Manitoba.

Relieved Of Liability

Edmonton.—No longer is the University of Alberta to be held liable for damages through actions of its students. A bill to amend the university act which was approved by the legislature in committee of the whole relieves the university of such liability.

Another Conference To Be Held In Near Future Regarding Relief Matters

Montreal.—A conference in the near future between the Dominion government and representatives of the provinces in regard to unemployment relief was foreshadowed in a letter received here by Mayor Camille Houde of Montreal from Sir George Perley, acting prime minister.

Sir George's letter was in reply to one seeking information as to the government's plans in regard to relief following the demand last month by the Dominion-wide conference of mayors which asked the government to accept full responsibility of dole costs.

Sir George Perley's letter follows: "As I said at our meeting with you in the railway committee room of the House of Commons on March 28, the government will take into con-

Held As German Spy

France Arrest Man Who Frequent High Political Circles

Paris.—Police claimed to have unmasked an important nest of spies in Paris with the arrest of a German, Edward Bernheuer, who they said frequented political circles possibly as an apostle of Franco-German rapprochement.

Authorities said they had found on Bernheuer a list of questions asking information on varied military, diplomatic and political subjects which he had asked a French journalist named Armand Avrousart to answer.

Bernheuer, who police alleged was one of the cleverest members of the German intelligence service, was held on a warrant issued by Judge Benon, the magistrate who conducted the original investigations of Mr. and Mrs. Benjamin Beesworth, naturalized Canadians, and 19 other suspects on spy charges.

A search of Bernheuer's flat, police said, yielded nothing but a curious pencil case containing tea-gas. A persuasive and interesting talker, he often frequented high political circles, they said.

To Aid Celebration

Band Will Offer Services Free For Jubilee Celebration In Calgary

Calgary.—Assistance of bandmen in Calgary's celebration of King George's silver jubilee was pledged by E. S. Harris, secretary of the National Musicians of Canada, Calgary Branch, who said members of his organization were willing to give their services gratis in playing the accompaniment of children's singing May 6.

It was feared the celebrations would have to be called off when musicians, members of a union organization with headquarters in the United States, decided to assist unless payment was made for their service. Alderman Dr. W. A. Lincoln said the city could not afford to pay musicians.

Hotels Show Profit

Two C.N.R. Hotels Show Profit On Operating Revenues Last Year

Ottawa.—The Chateau Laurier hotel in Ottawa and the Nova Scotian in Halifax were the only two units of the Canadian National Railways hotel system to show a profit on operating revenues last year, Hon. C. P. Fullerton, chairman of the board of trustees, said today in the annual report of the railway company.

The Chateau's profit was \$152,000 and that of the Nova Scotian \$9,500.

To date, said Mr. Fullerton, \$8,544,000 had been spent on the unfinished C.N.R. hotel at Vancouver. It was estimated \$2,700,000 more would be required to complete that establishment, including the furnishings.

Address To King George

Ottawa.—Prime Minister R. B. Bennett has placed on the House of Commons order paper notice of a resolution asking an address be voted to King George congratulating him on completion of the first quarter century of his reign.

U.S. Dust Storms

Thousands Of Square Miles Of Wheat Lands Devastated

Kansas City.—Out of the choking clouds which still hung like a pestilence over thousands of square miles in the southwestern United States—the brewing pot of big dust storms—reports emerged of rapidly mounting losses in wheat, "the money crop."

Pieces by piece the gloomy picture came from the area where the storm was concentrated—southeastern Colorado, southwestern Kansas, northwestern Oklahoma and the Texas Panhandle.

It was tempered in part by reports elsewhere. The big wheat acres of northwestern and north central Kansas maintained a favorable outlook. Rain and snow raised hopes in the northwestern tier of states.

At Washington the agriculture adjustment administration rushed plans for full benefit payments to drought-harassed farmers who plant no wheat. In the grain markets, wheat rose nearly four cents a bushel.

Walter Baarlow, Amarillo grain elevator operator, estimated the wheat crop damage in the Texas Panhandle to range between \$10,000,000 and \$20,000,000 based on current prices.

The April 1 condition of wheat in Kansas was officially reported as 47 per cent. normal, with a forecast yield of 78,290,000 bushels contrasting with 79,700,000 bushels last year, itself a short crop.

Degree For Bessborough

Conferred By Chancellor Of University Of British Columbia

Vancouver.—The honorary degree of Doctor of Laws and Letters was conferred upon the Earl of Bessborough by Chancellor R. E. McKechnie of the University of British Columbia.

Immediately following the ceremony Lady Bessborough was presented with a bouquet of yellow roses by Miss Clare Brown on behalf of the students of the university.

In acknowledging receipt of the degree His Excellency said that of the many links formed during his tenure as governor-general none were stronger than those forged by the universities of Canada among whose alumni he had been enrolled.

Majority In Peace Ballot

League Of Nations Union Took Vote In Britain

London.—Lord Cecil announced that the "peace ballot" conducted in Britain by the League of Nations union showed a huge majority in support of the league as a great instrument of peace.

"By a very little less, they favor diplomatic and economic action against an aggressor," he said. "By a less but still considerable majority—three to one—they support, in the last resort, military measures with the same object."

A total of 5,500,000 votes were cast in the ballot.

Migration Policy Urged

Montreal.—The time has been reached when the governments of Canada and Great Britain should devise a definite joint migration policy, Lord Rodney, of Fort Saskatchewan, Alta., said here in addressing the Montreal branch of the Royal Empire Society.

NEW GOVERNOR-GENERAL

John Buchan, author of many novels and histories, and formerly Lord High Commissioner of the Church in Scotland, who is to succeed the Earl of Bessborough in Canada. He will be the first commoner to be appointed to the post.

Making Complete Recovery

Premier Bennett Planning To Sail For England To Attend Jubilee Celebration

Ottawa.—Although Prime Minister R. B. Bennett had not yet left his apartment he was expected to take some outdoor exercise in a day or two for the first time since Feb. 24, when he was taken ill.

Tentative booking has been made for the prime minister on a steamship sailing from New York at the end of this week to take him to the King's Silver Jubilee celebrations in London.

Mr. Bennett has had several conferences with members of the cabinet over the works legislation now being drafted to put many thousands back to work.

Introduction of the works measure is expected before motion is made for the Easter adjournment.

Mr. Bennett is said to be making a complete recovery and only a further breakdown will prevent his heading the party in the forthcoming general election campaign.

Help Railway Workers

Double Contributions From Heavy Earnings Would "Underdog" Assist

Ottawa.—Railway engineers, conductors and firemen working under certain conditions in a mileage basis that might give them two weeks' pay in one week should make a contribution of 25 cents for "each" week earned to the Dominion unemployment insurance fund, Senator James Murdock told the senate banking and commerce committee.

The former Liberal minister of labor believed the double contribution in such instances would be fair to the "underdog"—the railway sectionman receiving a week's wage for six days' work, and unemployed railwaymen.

Horse Market Dull

Montreal.—Trading turned low on the Montreal horse markets during the past week and a quieter tone prevailed after several weeks of active buying. Prices held steady, general work horses bringing \$85 to \$115 and heavies \$135 to \$155.

Drastic Labor Reforms Are Recommended By Price Spreads Commission

Ottawa.—Far-reaching labor and wage reforms, including a 44-hour working week, were recommended in the report of the price spreads commission, tabled in the House of Commons.

Among the commission's recommendations were suggestions for strengthening provincial labor laws, closer co-operation between federal and provincial authorities and uniformity of legislation.

To gain uniformity in labor laws and give control to the Dominion the commission recommended either amendments to the British North America Act or agreement with the provinces to permit the Dominion to invade their legislative field.

The commission urged further unionization of industry but its main recommendations were for government action.

Provincial governments were urged to enforce minimum wage laws through qualified inspectors. Penalties for infractions should be increased with jail terms for frequent offenders with separate sentences for each underpaid employee.

Maximum wage boards were urged to seek restitution from employers

who were caught underpaying their workers. They were urged also to abolish all exemptions issued to firms.

The commission suggested discontinuance of minimum wage laws which enabled an employer to qualify if he paid 80 per cent. of his workers the legal minimum. The practice of "averaging" also should be abolished and the method of dealing with inexperienced workers revised.

Minimum wages for men also were recommended to stop the practice of substituting unpaid boys and men for women protected by the law.

The provinces were urged to decrease the working week and bring under one control minimum wages and working hours. The working week was recommended at 44 hours with time and a half up to 55 and double rates thereafter.

Manufacturers, large and small, should be forced to keep adequate employment records, the commission declared.

Fraudulent industrial relations would be punishable by fines and imprisonment if the government accepted and acted on the recommendation from the commission.

FEDERAL PLANS FOR RESCUING DROUTH AREAS

Ottawa.—Plans for rehabilitating the drouth and soil drifting areas of the prairie provinces were laid before the House of Commons by Hon. Robert Weir, minister of agriculture. He was introducing a bill which provides \$750,000 this year and \$1,000,000 annually for four years following, to put these plans into effect.

The prairie farm rehabilitation advisory committee will be appointed to advise Mr. Weir on plans for rescuing the drouth harassed areas. The minister will go west as soon as parliament adjourns for the Easter recess when the committee will be set up and begin operations.

The program in a general way has been worked out, but the committee will advise on its development. Five rehabilitation areas are planned, three in Saskatchewan and one each in the other provinces. Each of these will include about 36 square miles where methods for saving the lands will be demonstrated.

About 50 large illustration stations, ranging from one to two sections will be provided, where the best farmers in any area, will be selected to proceed with illustration work. They will be supplied with proper seeds and allowed certain payments on an acreage basis for carrying out work of reclaiming the land.

Certain abandoned lands will be taken over and efforts made to bring them back into pastures. Extensive tree planting will be carried out under contract with farmers in two areas, including shelter belts.

Possibly 1,000 small dams will be

built on individual farms to conserve water supply. Owners of such farms will be supplied with engineering advice by the department of agriculture as to location of these dams, and in some instances farmers will be assisted to procure materials.

A number of larger dams, holding back spring freshets of streams in ranching areas of the three provinces will be constructed. The lakes thus formed will provide both water supplies for livestock and for irrigation purposes.

In addition there will be township areas where supplies of grass seed will be provided to restore pastures when rains make the sowing of such seed advisable.

A considerable program of seed production is planned which will provide abundance of suitable grass and clover seeds to supply areas as required.

The advisory committee, former appointees of which will be from drouth areas, will consist of a chairman appointed by order in council:

One representative each of the Manitoba, Saskatchewan and Alberta grain growing farmers.

One representative of Saskatchewan livestock farmers.

One representative of Alberta range farmers.

One representative of mortgage companies of Canada.

One representative of the Canadian Bankers' Association.

One representative each from the Canadian Pacific Railway Company, Limited, and the Canadian National Railways.

Two representatives from the Dominion department of agriculture; and

One representative of the department of agriculture of each of the provinces of Manitoba, Saskatchewan and Alberta.

Missing Flyers Safe

Spent Five Days In Trapper's Cabin Near Prince Albert

Prince Albert, Sask.—After stripping the undercarriage of their aeroplane in a landing at Swan Lake, in the Big River district, 75 miles north of here, and being forced to spend five days and nights in a trapper's cabin, Charles W. Halsey, superintendent of fur and game for the department of natural resources, and government pilot Bob Eddy were safely returned to civilization.

The two men, missing since their Puss Moth machine was swallowed in the distance after they took off from the Ladder Lake air base, were found by E. Jepson, supervisor of forest protection, and pilot Angus Campbell of the M. and C. Aviation Company.

Neither was hurt in the smash-up. The damaged machine, leased by the government from a Weyburn aircraft company, is still in the north.

Honored In Death

New York.—Last rites, brief and simply conducted, honored Adolph S. Ochs, publisher of the New York Times in the presence of nearly 3,000 persons. The services were held in Temple Emanuel, a massive synagogue at Fifth avenue and 65th street, which seated 2,500 people. Others stood in the balconies.

UNUSUAL PHOTO OF THE SIMON-HITLER PARLEY AT BERLIN

This picture, rushed from Berlin by aeroplane and boat, records a dramatic moment at the conference between Adolf Hitler, leader of Germany, right; Sir John Simon, centre, British Foreign Minister, and Capt. Anthony Eden, Lord Privy Seal. Their discussion centred around Germany's move toward re-armament and her re-entry into the League of Nations. Latest developments in Europe indicate that an international security pact will be drawn up with Germany included.

NOTES AND COMMENTS

EASTER—joyous season to commemorate the triumph of victory over death, comes at a time when winter's trials have passed away. Something that brings inspiration towards a better life is a much-needed tonic, to relieve the negative and critical attitude of so many who prescribe quick remedies for the salvation of humanity, and whose teachings instead of brightening the path, turn people's thoughts into dark and despairing channels.

MEN'S THOUGHTS in time of trial and stress inevitably turn towards the Infinite. Easter emphasizes the lesson that as the Saviour triumphed over trial and tribulation to may the individual by strength of mind and character overcome the man-made difficulties that have strewn the path of life. Keeping in tune with the Infinite helps to brighten the day, and Easter with its celebration of the first Easter morn teaches us to adopt the positive attitude that higher and better things will follow if we honestly strive to live up to the teachings of the most humble yet the most exalted character the Christian era has known.

A serious division in the ranks of Aberhart's Social Creditors has been caused by his method of selecting candidates. Archibald F. Key of Drumheller voices the feeling of a considerable number who attended the Calgary convention in objecting to the un-democratic method whereby Aberhart and his henchmen or "yes-men" would decide who are to be candidates. A man in this district mentioned is a candidate for Pincher Creek also disagrees. Letters from many districts show a serious defection from Aberhart's ranks, while the Alberta Labor News remarks, "Some of the statements made by Mr. Aberhart at his convention are absurd, fantastic nonsense that would be more in place in the pages of 'Alice in Wonderland' than in a sane discussion of economic problems."

A correspondent to the Calgary Herald states: "As a rule we go to church not to hear the clamor and strife and noise of a political discussion, but for the inspiration we get from lovely music and the quiet peace and beauty of a fine sermon, for real religion is not noise and strife and discord."

Editorially The Herald states: "William Aberhart's decision not to submit his proposals to the legislature occasions no surprise because it has been expected all along. It would be surprising if he can prove to the general public that he has a workable plan at all."

Archibald F. Key writing in the New Review, Drumheller, of which he is editor, states: "Strangely enough, it was Mr. Aberhart, not myself, who privately discussed possible candidates with certain out-of-town visitors and he knows darned well that I strongly disapproved of such wire-pulling skull-duggery. My only offence is that I publicly voiced my indignant reaction to a convention which was marked by an outburst by Mr. Aberhart to the effect that if he couldn't get his own way concerning choice of candidates he would resign the leadership."

Neither Mr. Aberhart or his fanatical followers inspire public confidence, and the evident reaction anticipated by those who do not succumb to emotional appeal appears to be quickly developing, judging from opinions expressed in letters in many daily and weekly newspapers.

Herb McCrea's paper, the Hanna Herald, against which Mr. Aberhart

threatened a boycott because quite early in the campaign he expressed disagreement with the Bible prophet's plan, reports a record increase in paid circulation during the first three months of 1935, in fact an all-time record covering 23 years.

A pamphlet issued by the Mine Workers Union of Canada, of which J. Stokulak is secretary, contains so many inaccuracies that it falls flat in its appeal to incite dissatisfaction among mine workers. Propaganda based on statements which will not bear verification cannot but fail, and the pamphlet contains many things which are untrue.

Those who engage in political activities must take their medicine as well as the fruits of victory.

Monday will see a general exodus of Scouts and Girl Guides to Calgary to meet "The Chief." Mrs. Borden as district commissioner has aroused so much enthusiasm that the Crows Nest Pass district will probably send the largest contingent of any district of similar size in Alberta. From as far west as Cranbrook it is expected that members of this army of good will and loyal citizenship will journey in the special train leaving Coleman for the Jamboree.

Parliamentary Show

By J. S. Cowper, Edmonton

Social Credit of the kind advocated with much force by Wm. Aberhart of Calgary is the keenest thorn in the side of the government, and the object of its bitterest attacks. In addition to the addresses denouncing the Aberhart Plan delivered by Mr. Speaker Johnson, the ex-premier Mr. Brownlee is delivering a series of radio broadcasts denouncing the Aberhart plan. He was joined by the Conservative leader D. M. Duggan last week, who in a radio address accused Mr. Aberhart of bad faith in not appearing before the legislature or assisting the government with an exposition of his plan when invited to do so.

The agricultural committee summoned last Friday, Dean J. Weir of the University law school and Prof. C. A. Elliott of the department of economics as expert witnesses on the constitutionality and the economic possibility of the Aberhart plan. Both of them were against its validity.

Prof. Elliott declared it would cost \$120,000,000 a year to meet the requirements of the "non-negotiable certificates" and unless this was obtained by taxation or borrowing, a form of inflation would ensue that would drive legal tender out of the province and make the non-negotiable certificates valueless. He made calculations to show that it would only benefit those who earn less than \$450 a year, while it would take in taxes more than it gives to those over \$450 a year.

Dean Weir was emphatic that the Aberhart plan is in the teeth of the British North America Act and of Section 138 of the Bank Act and would not be allowed. The "non-negotiable" aspect of the certificates he said would not get round the prohibition against issuing legal tender or a substitute for it. Instead, it indicates that it is for purposes of subterfuge and would therefore be held ultra vires.

Of the party leaders only W. R. Howson, K.C., for the Liberals has proved hospitable to Social Credit. He has qualified his acceptance by the requirement "so far as it can be proved practicable by Mr. Aberhart and Major Douglas in their forthcoming report."

Local News

Mrs. S. Brocklehurst of Calgary is the guest of Mr. and Mrs. S. Howarth during the Easter holidays.

Miss Krywolt, 20 years, of Frank, died last week and many attended the funeral on Sunday at Blairmore.

The latest rumor is that two hands were found in West Coleman. Maybe poker hands,—ace high!

Mr. and Mrs. Herdman McLeod of Mercoo were the guests of Mr. and Mrs. Andrew McLeod last week.

The Parliamentary Show

By J. S. Cowper

In order to prevent the University of Alberta from being again made liable for damages in the event of further hazing of students as part of their higher education, the government brought in an amendment to the University Act, protecting the University from civil suits for damages, without its consent. In the recent Powlett case, in which the youth was driven insane during the hazing process, the damages and legal expenses incurred by the province exceeded \$50,000.

Sudden Death of N. P. Eastwood on Sunday

N. P. Eastwood, for many years the owner of a tailor shop in Coleman, passed on in Coleman hospital at 6.30 p. m. Sunday, April 14. Born in Sault Ste. Marie in 1872, he came to Coleman from Frank in 1910. He served overseas in the 192nd Battalion. C. E. F., returning here in 1917. During the past few years he suffered recurring periods of illness, and spent a few weeks away each year on a vacation to recuperate.

Sisters live in Cleveland, Ohio, and Orangeville, Ont., and a brother resides at Alliance, Ohio.

Here and There

LT-Col. F. A. Gascoigne, recently retired secretary-treasurer, Canadian Pacific Steamships, has been elected president of the Dominion of Canada Rifle Association at the annual meeting of the Association held recently, succeeding LT-Col. R. C. Crowe, of the Ministry of National Defence.

D. S. Thomson, who has been appointed assistant superintendent, Canadian Pacific Railway, Smiths Falls, was, prior to his promotion, chief clerk in the office of the vice-president and general manager of the railway at Montreal. On leaving, to take up his new appointment he was presented with a gold standard railroad watch and a purse of money by his fellow-workers in the office.

Just 150 years ago the first Dalys settled in Napanee and a few nights ago his descendants, Marjorie and John Daly, celebrated the momentous occasion at a supper dance at the Royal York Hotel, Toronto. This makes the sixth generation of the Daly family continuously resident in Canada.

Sixty-two calls at European ports will be made by the five express "Beaver" class cargo steamers of the Canadian Pacific fleet this summer, according to the season's schedule recently issued by Canadian Pacific Steamships. Crossings will take nine and a half days in each direction and will touch at London, Antwerp, and Hamburg.

An appeal to the press to mould public opinion in support of larger grants for medical research, particularly into the cause and control of cancer, was voiced by LT-Governor Bruce of Ontario, at the Royal York Hotel recently at the banquet which wound up the seventh annual convention of the Canadian Weekly Newspaper Association, Ontario-Quebec Division.

Skiing and bear-hunting were combined at the Bates Camps, Metagama, recently, when two women skiers of Toronto, accompanied by a photographer, routed a bear out of his den and stood near while the animal was "shot" by a movie camera.

The Orient with its mystery and its allure, its brilliant colors and picturesque scenes, will form the inspiration for the Beaux Arts Ball, biggest event of the spring season, to be held the week after Easter at the Canadian Pacific Hotel, Toronto. The historic theme for the ball is the great festival at Samarcand held in 1404 to celebrate the Emperor Tamerlane's conquest of India.

Musical and literary England, and the England of the great cathedrals will be the theme of summer by a party under the leadership of Dr. Alfred Whithead, organist of Christ Church Cathedral, Montreal. Itinerary of the tour which will take about a month has been arranged by Guy Tombs, Ltd., in conjunction with the Canadian Pacific Steamships.

Had the same research been put into other industries as has been employed in the automobile business, you would not hear so much today about the high cost of living, said Col. Frank Chappell, of General Motors, Ltd., speaking at a lunch at the Lord Nelson Hotel, Halifax, recently.

Don't Overlook PONTIAC if you are looking for a LOW-PRICED CAR

IF you are in the market for a low-priced automobile, be sure to include Pontiac when you set out to make comparisons. General Motors built the new Six with the express purpose of widening your choice in the popular-priced field. No other automobile can better its dollar for dollar value.

Look, for example, at Pontiac's features: Solid Steel "Turret Top" Bodies by Fisher; Triple-sealed Hydraulic Brakes; Concealed Tire and Luggage Compartment; Enclosed Knee-Action (on the Eight and De Luxe Six, optional at extra cost on some standard models); Cross-Flow Radiator; Silent Synchro-Mesh Transmission and Fisher No-Draft Ventilation.

Don't forget, then, when you look at low priced cars to include the Pontiac Six. Remember, too, if you want a big Straight Eight with all the fine-car characteristics at a moderate figure, to look at the new Pontiac Eight. Both automobiles are now on display at our showrooms.

New territory in the Canadian Rockies will be opened this year by the Sky-Line Trail Hike, and Trail Riders of the Canadian Rockies, two societies whose members come from all over the world to enjoy these splendid recreations. On foot and on horseback, they set out from the Canadian Pacific Banff Springs Hotel to conquer the mountains—not just to climb them, but to capture their beauty with cameras, to erect friendly, cheerful camps on their heights, and to carry away from their wooded slopes health and pleasant recollections. The official Sky-Line Trail Hike, from the second of August to the fifth, will follow the part of the trail taken through the Rockies in 1941 by Sir George Simpson, governor of the Hudson's Bay Company.

It is planned to motor from Banff Springs Hotel to the game warden's cabin on Healy Creek on August 2, hiking to the Canadian Pacific cabin, the Sunshine Camp, the first day. In the second day Simpson Pass will be crossed and the second camp made at one of the Elbow Lakes, near Mummy and Scarab Lake. The third night will be spent at Shadow Lake and the final Pow-Wow will be at Castle Mountain Camp on the Banff-Windermere Road, after which husses will be available for those who wish to go to Banff. The whole distance will be about 88 miles.

The official five-day trip of the Trail Riders is from July 26 to 30 and this year takes in the Red Deer River, former famous hunting ground but now inclosed in the Banff National Park, which limits all hunting to camera. The trout fishing is excellent and ample time will be set aside for fishermen, while the others in the party will take pleasant side trips. The party will motor about 11 miles from Banff to the crossing of the Cascade where horses will be waiting. The first camp, used for two nights, will be somewhere near Windy Camp. They then ride over Snow Creek Pass to Scotch Cabin on the Red Deer and turn west to the second Camp. The trail will follow the Red Deer to its source, and turn south to Baker Lake and Ptarmigan Lake to a camp in the Ptarmigan Valley. The fifth day's ride is to the Sun Dance Lodge near Lake Louise Station, for the Pow-Wow.

SWIFT'S ANNUAL EASTER CAMPAIGN—READ RETAILERS ANNOUNCEMENTS

E
A
S

A genuine Swift's Premium Ham can be prepared this easy way; without parboiling:

Place a whole or half Premium Ham in a roaster. Add 2 cups of water, and cover the roaster... Bake in a slow oven (325°), allowing 21 minutes a lb. for a large whole ham; 25 minutes a lb. for smaller (up to 12 lbs) hams or half hams... When ham is done, remove from oven. Lift off rind. Score surface and dot with cloves; rub with mixture of 1/2 cup brown sugar and 1 tsp. flour. Brown uncovered, for 20 minutes in a moderate oven (400°).

SWIFT'S PREMIUM BACON IS OVENIZED TOO... marvellous flavour and tenderness for your Easter Breakfast table!

Week In Ottawa

By Frederick Edwards

The Conservative party Friday registered their feeling toward ex-Minister of Trade and Commerce H. H. Stevens, his fighting stand on the broad question of unscrupulous business and combines, and Secretary of State C. H. Cahan.

It came when Mr. Stevens "took the rap" for premature release of the report of the Royal Commission on Price Spreads. But, he explained, "without my knowledge confidence was violated."

The Conservative members were in their seats when Mr. Cahan rose to take a little shot at his political foe, Mr. Stevens, on the question of oaths of office. Incidentally, Mr. Cahan virtually supported Liberal Leader Mackenzie King. They sat silent while Mr. Cahan spoke.

Then Mr. Stevens rapped back, hotly refused to budge from his stand that he had acted for the good of his country through "the whole thing." They banged their desks, banged some more, at this.

Speaker Bowman made a short speech, pointing out that the members themselves must judge whether Mr. Stevens should continue on the line he was taking. He might be out of order, but Mr. Speaker had no objections to Mr. Stevens continuing if the House wished.

"Go on, too important to stop," shouted a fiery member. The House vibrated with commands for Mr. Stevens to continue. The roar was general over the whole House.

Mr. Stevens continued. He flayed "Lilliputian" efforts of parliament when the real issue of the day was squelching or allowing to continue the "stranglehold combines have on our economic life." Conservative members again banged their desks, louder. They banged for quite a few seconds. Then officialdom threw its cloak over the house.

The report of the Royal Commission on Price Spreads was tabled. Before Chairman W. W. Kennedy knew what had happened, up jumped Mr. Stevens and moved its adoption.

The keynote of the report is the recommendation for regulation of industry as a whole by a strong government board. Industries related to primary products within the compass of the 1934 Marketing Act, it is suggested, should be more stringently controlled.

Monopolies are put on the spot. They must be regulated for the public good.

Labor and wage reforms recommended include a 44-hour working week; strengthening provincial labor laws; amendments to the B.N.A. Act if necessary to permit the Dominion to invade the provincial labour legislation field; further unionization of industry; evasion of minimum wage laws, strengthened where necessary, made a Criminal Code offence; new machinery under the Industrial Disputes Investigation Act.

The chain store principle is condemned, the chief criticism being that centralization of control induces practices inimical to the public interest. The Commission's attitude was "neutral" on departmental stores as such.

Seventeen amendments to the Dominion Companies Act are suggested with a view to curbing unethical and illegal stock maneuvering practices.

Amendments are recommended to the Combines Investigation Act to curb or abolish monopolies, as may be deemed advisable.

Locomotive Foreman H. Shaylor of Crows Nest and his daughter, Mrs. Fred Brown of Coleman were Calgary visitors last week.

BARGAIN FARES TO COAST**

Bargain fares to the Pacific Coast which were offered the public last spring proved so popular the Canadian Pacific will repeat them this spring, it was announced by C. W. McKinnon. Tickets will be on sale April 13 to 20 inclusive, with 21 days return limit, and will permit stop-over at Banff, Nelson and stations west. A feature of these fares will be the privilege of tourist or standard sleepers at slightly higher rates and usual berth charge. The special cent-a-mile fare good in coaches will also be available.

Springtime is a particularly delightful season on the coast and indications are many will avail themselves of the low fares and make the trip at this season.

The First Catholic Slovak Jednota will hold a dance in the Italian hall on Easter Monday, April 22, for which posters have been issued at The Journal office. This is the first dance the society has held in three years, and will be a popular holiday event.

CLEAR "STUFFY" HEADS

WORLD HAPPENINGS BRIEFLY TOLD

Nelson R. Butcher, who picked up his shorthand while working on a farm and later became recognized as peer of Canadian court reporters, died recently in Toronto.

Preparations for the King's Jubilee Celebration resulted in the biggest monthly drop in British unemployment in three years, the ministry of labor announced.

Sixty members of the Canadian Legion headed by Hon. Philippe Roy, Canadian minister to France, made a pilgrimage to Vimy Ridge. Representatives of the British Legion accompanied them.

Paving the way for heavier levies on higher incomes in Alberta, the government introduced a resolution in the legislative assembly to provide for a bill to amend the Income tax act.

Children 12 years of age and over will be tried for crimes and be liable for the full penalties of the law, excluding capital punishment, the same as adults, the Soviet government announced.

Some of the 400-year-old records of the central Paris courthouse were destroyed by a fire which raged more than an hour in ancient St. Louis tower before firemen brought it under control.

Total amount of outstanding Dominion tax free bonds aggregates \$328,960,000, Secretary of State C. H. Han stated in an answer tabled in the House of Commons. J. F. Paul Iot (Liberal, Temiscouata) raised the question.

Another England-Australia air derby with generous prizes may be held next December in honor of the centenary of South Australia. Premier R. L. Butler of South Australia said in a speech at Adelaide, capital of South Australia, he said.

Man Has Strange Fear

Remains In House 30 Years To Avoid Having Pneumonia

In Sheffield, England, lives a man who, for the past 30 years, has never gone outside his own house. His self-imprisonment is caused by his fear of pneumonia—he feels that if he goes into the open air he will catch a cold and that will develop fatally. Although he never leaves the house, the man—John Scatle—is in good health, and operates his business from his residence. Contact with other than members of his family and those connected with his business is another thing he forbids. His dread of the supposed dangers of the open air is not held by him alone, although in these days such a dread is rather hard to understand. The medical officer of health for a southern shire, whose duties take him into the houses of the richest and the poorest, tells of cases of cottagers who never open their windows and who, after he has smashed them (the windows, the cottagers) in an effort to get the house thoroughly aired, immediately cover the openings with thick paper. Medical advice to the contrary, they have a horror of open air. And, remember, our ancestors, with their canopied beds which kept out the faintest suspicion of a "draught."

Sportsmen, "Swat That Crow"

Interest in Crow Destruction Work Growing Through The West

Canada's National Crow Destruction Week, commencing April 23rd, is getting well under way. This movement, in the interest of conservation of wild bird life, initiated by the Saskatchewan Fish and Game League, is spreading from coast to coast. Since the preliminary announcement two weeks ago, the Alberta Fish and Game League has circulated all its members urging co-operation. The Manitoba League is falling in line. Publications of national circulation, are urging sportsmen to accept the challenge thrown out to them to fight for the heritage of a plentiful supply of game bird and song bird life in this country. This battle with crows is not limited to the sportsmen alone as chief participants. Farmers and ranchers are vitally interested. Those who prefer to hunt with the camera instead of the gun will do their part to rid the country of this most pestilent marauder of the spring crop of other birds nests and of the black-headed plover of the young birds that succeed in hatching.

But calling the crow what he should be called and finding him guilty of his crimes, will not suffice, it is execution on the scaffold in the literal sense of the phrase, that is necessary for the success of this campaign. The duck are on the way back, over their centuries-old flyways, to the prairie breeding grounds, in greatly diminished numbers. Soon, the sharp-tailed grouse, equally as defenceless as the duck, against the attack of the crow on the nest or the young, will be laying their nests full of eggs. From sixty to eighty per cent. of the early nests of those birds will be destroyed on the prairie area, where cover is scarce by reason of the lack of nesting cover. Cattle starving for green food, during the dry summer and fall of 1934, cleaned off underbrush to such an extent, that nests will be as visible to the soaring crow as an airport to a pilot. One quarter of a million crows, each destroying one nest, will devour one million game and song birds of the right to live.

Branches of Game Leagues everywhere are urged to get down to business in active organization, to reduce the crow population by at least one million, during the spring and summer of 1935. There is not much use in waiting on governments to assist. After all, the sportsmen ultimately is the best friend of the game bird and on the sportsman, rests the responsibility of fighting for the continued existence of his game, for himself and posterity.

Ten men in any community, interested in this problem, by expending one dollar each, can provide for the school children of their community a sufficient bounty at one cent per crow egg, to dispose of one thousand eggs. It would not be difficult to destroy one million crows by that means alone.

Then what about getting rid of a million crows before they have a chance to lay their eggs. Make the bounty five cents per pair of crow feet. The weapon, that has been used and put away, for the winter months, can be taken out again, and put to the most useful purpose for which it was ever employed, by sending well directed charges of shot, at the crows, in competitions organized by sportsmen for that purpose. When the weather is still too cold, to enjoy the hour in the skeet-field or at the traps, competitions of this nature will not only render real service, but will bring back that fine old feeling of exhilaration, which comes only from a tramp in the out of doors, with a gun in a crook of the arm, a crow call between the lips and the old heart pounding out some of the sluggishness, that it has gathered up in the winter's inactivity.

Sportsmen, swat that crow, in the Crow Destruction Week and for the rest of the summer as well. Campaigns of this nature need assistance, which can be given by active membership in Fish and Game Leagues organized in every locality.

The weight of a loaf of bread in Canada is not standardized but it is regulated by municipal by-laws in the various provinces with the exception of Ontario. In Ontario the legal standard weight of a loaf is fixed at 24 and 48 ounces, except that in the case of "small bread" the limit is fixed at 12 ounces.

Direct canal communication is to be made between Bremen and Hamburg, Germany. 2094

NEW SUPER-LINER "QUEEN MARY"

—Cunard White Star Photo.

The decision of Cunard White Star marine designers to retain the knife-edge bow in the new super-liner "Queen Mary", as against the so-called bulbous bow, has started quite a controversy in shipping circles. All of the large liners built within the last few years feature the bulbous bow. However, it was the knife-edge bow which enabled the Mauretania to keep her laurels as speed-queen of the Atlantic for 22 years after her launching. The "Queen Mary" is expected to enter the trans-Atlantic service in the early summer of 1935.

Birds Cause War Worry

Superstitious People Of Northern Europe Dislike Wax Wings

Because birds known as waxwings have been seen recently in northern countries of Europe superstitious people are predicting a European war or some other great calamity. For centuries the arrival of waxwings in winter has been regarded over a great part of Europe as a harbinger of war, plague or death. They are said to be the devil's own birds and bear his mark in the shape of a globe of what looks like scarlet sealing wax at the end of the shaft of some of the wing feathers. In recent times the old belief has been strengthened by their being seen during the winter preceding the World War and the Franco-Prussian war.

Hunters can tell almost the exact height of an elephant by the size of its track; the shoulder height is double the circumference of the fore-foot.

The largest beetle in the world is the African goliath beetle which has a body four inches long.

People of Rumania are again adding to their bank savings accounts.

A Huge Investment

Livestock Industry Is Very Valuable To Canada

The Dominion bureau of statistics reports the value of farm livestock in Canada for 1934 at \$413,837,000 compared with \$403,135,000 in 1933, estimated the average value per acre of Canadian farm land and buildings at \$23 compared with \$24 in 1933 and the combined monthly value of wages and board for the 1934 summer season at \$35 for men and \$22 for women.

It said the wage and board rate for men was \$1 a month more than in 1933 and the same in both years for women.

Gold to a value of approximately \$100,000,000 has been taken from the sands and creek beds of the Nome, Alaska, region since gold was discovered there in 1898.

In England last year there were 20,000,000 more weeks of work than in 1933.

Two thousand carloads of potatoes are eaten in the United States daily.

Japan's most famous archer was Tametomo.

\$2,000 GOLD CUP FOR INTERNATIONAL GOLF TOURNAMENT AT FORTNILL, ONTARIO, JULY 11-12-13

Never in the history of Canadian golf has so handsome or valuable a trophy been donated for competition as the Seagrave Gold Cup, presented by Seagraves for the six-man team competition in the General Brock Hotel Open Golf Tournament to be played at the Lookout Point Golf Club, Fortnill, Ontario, on July 11 and 12. The cup stands eighteen inches high, is mounted on an ebony base and is a very fine example of the goldsmith's craftsmanship of several hundred years ago. Moulded from ornate metal and plated with eighteen carat gold, it could not be duplicated to-day for less than two thousand dollars. During Christie's of London, England, this trophy was secured from the estate of Lord Darnley.

The presentation of this heirloom

revives memories of the ill-fated Lord Darnley (1545-1567), great grandson of Henry VII, first husband of Mary Queen of Scots, and father of James I of England. Lord Darnley was considerable of a reprobate and his marriage with Mary was convived by Queen Elizabeth to John Knox as it would place their heir, a Catholic, in line for the throne. Lonely for the continental life she had been accustomed to, Mary was brought up at the court of the Dauphin in France, she brought Rizzio, an Italian musician to Scotland court to entertain her. Returning one night in a rage, the jealous Darnley had Rizzio murdered by his followers. The Italian's dead body was then presented to the Queen. A short time later, when he was twenty-one years of

SUNDAY SCHOOL LESSON

APRIL 21

THE FUTURE LIFE

Golden text: I am the resurrection and the life: he that believeth on me though he die, yet shall he live. John 11:25.

Devotional reading: Psalm 23:1-6.

Explanations And Comments

The Empty Tomb and the Good News, Luke 24:1-12. Early on Sunday morning after the crucifixion of Jesus, Mary Magdalene, and Joanna, and Mary the mother of James, and other women came to the tomb where his body had been laid, to embalm it with spices which they had prepared. To their great amazement, the stone that guarded the entrance to the tomb they found rolled away, and on entering, they found the tomb empty. They fell on their faces in fright when two men suddenly appeared and questioned, "Why seek ye the living among the dead?" Recall Peter's words in his sermon at Pentecost, "It was not possible that he should be holden of death." "He is not here, but is risen." Then the messengers reminded the trembling group that Jesus had foretold his crucifixion and resurrection.

Can you not imagine in what excitement the women hurried off to tell the disciples? But the disciples could not credit their story. The words appeared to them "as idle talk." Peter hastened to the tomb and looked in to behold the linen wrappings there but no body of his Lord and went away overcome with wonder.

The Promise of Christ, John 14:1-3. "Let not your heart be troubled," Jesus bade his sorrowing disciples in his farewell talk with them. It was no mere exhortation to keep up their courage, no comfortable optimism that he bade them hold, for he gave them a reason for untroubled hearts, told them how they could face the dark days ahead, when he added, "Believe in God, believe also in me." In spite of everything they must trust in the goodness of God and in their Lord's loving thought of them.

Separation was at hand, but there would be a reunion. By going away Jesus would make ready for his followers abiding places in His Father's home. The Greek word translated mansions means places of shelter, and the margin of the Revised Version has the translation abiding places. All people have a belief in a future life and this belief, Jesus' words tell us, is true, for otherwise he would have disillusioned the minds of his followers.

Cowhides to the value of \$277,547; sheepskins, \$134,444; calfskins, \$117,441, and "harness leathers", \$322,940, were used during 1933 by the Canadian miscellaneous leather goods industry, which includes harness, saddlery, trunks, bags, purses, and belts. Other farm products in the shape of goatskins and pigskins were also used in smaller quantities.

The Romans back in the first century A.D. had the custom of putting statues of famous authors in their libraries.

Coron, introduced into Africa from Central America, is the main agricultural feature of the Gold Coast.

How deep in the sea whales can dive is not yet discovered by science.

Rare Operation

Cornes Of Eye Of An Infant Transplanted To Eye Of Adult Patient

A comparatively rare surgical operation was reported by the Columbia Presbyterian medical centre, in which the cornes of the eye of a stillborn baby was transplanted in the eye of Fremont Clark of Wadena, Ia.

The success of the operation, performed by Dr. Ramon Castroviejo, cannot be determined for several days. The operation was described as "unusual when effective." The patient's eyelid is sewn shut and the eye heavily bandaged so that the tissues may be undisturbed in taking root.

Recipes For This Week

(By Betty Barclay)

BRAN BANANA MUFFINS

- 2 tablespoons shortening
- ¼ cup sugar
- 1 egg (well beaten)
- 1 cup sour milk
- 1 cup all-bran
- 1 cup flour
- ¼ teaspoon soda
- ¼ teaspoon salt
- 1 teaspoon baking powder
- ½ cup chopped banana.

Cream shortening and sugar; add egg, milk and bran and let stand while measuring remainder of ingredients. Stir flour with soda, salt and baking powder. Cut banana in small pieces and add to sifted dry ingredients. Add to first mixture and stir until flour disappears.

Bake in greased muffin tins in a moderate oven (400 degrees F.) for 20-25 minutes.

Yield: 16 small or 8 large muffins.

BAKELESS PUDDING

- 1½ cups (1 can) sweetened condensed milk
 - Juice of 1 lemon
 - 1½ cups graham cracker crumbs
 - 2 eggs
- Blend together sweetened condensed milk, lemon juice and well-beaten egg. Stir until thick. Add graham cracker crumbs. Place in sherbet glasses. May be garnished with whipped cream and nut meats. Serves six.

May Buy A 'Plane

Eighty-Year-Old Man Has Had Colorful Career

John Hays Hammond dug mines for precious metal under the surface of four continents, and got himself mixed up with a Mexican revolution and one in South Africa while doing it. Sunday, March 31, was his eightieth birthday and he has said that he might buy himself an airplane to celebrate. A veteran of pony express days in the Wild West, this eminent engineer recently has made considerable use of airplanes and blimps, "now that I can afford to take chances I couldn't as a younger man."

Exports from Argentina are greater than a year ago.

WEAK WOMEN

THE TENDERFOOT

By

GEORGE B. RODNEY

Author of "The Coronado Trail,"
"The Canyon Trail," Etc.

CHAPTER XVII.—Continued

"But . . . My God, man! To do that you've got to inform on Peyotl!"

"Well . . . What if I do? What good is Peyotl to anybody?"

"You . . . You can't do it, Sam. You just can't do it!"

"Who? Me? I'll show you. I mean to have that girl. We've got our safe full of cash right now. In a week we'll own the Hour-glass and Soda Springs and the mine that old Kane found. In a year I'll be travelling with my red-headed wife and you can buy one for yourself. Like it?"

"Spoke did not like it and said so. The risks were too great. But Dustin did not even listen to his objections. He rose suddenly and seized his hat."

"I'm going over to the Hour-glass right now," he said. "Spoke watched him go and shook his head."

"I wish to God I'd kept clear of Sam," he muttered. "They got nothing on me though. It's always been Sam gave the orders about the cattle. It's been Sam tended to the money end of it. Come to think of it, if anything happens maybe I'll prove to be the smarter man. Sam's headin' for trouble if his foot slips!"

But Dustin was heading at that moment for the Hour-glass. He knew that Crewe and Carr with Stone would be delayed in Seco and he wanted to be the first to tell the news to Edith.

She met him as he was dismounting amid a ring of angry men, for the Broken Spur was not loved at the Hour-glass. Dustin stared then down and faced her calmly.

"I came over here to-night as a neighbor should," he said. "I've got some bad news for you . . ."

"So you came to enjoy telling it . . ." She hung the words at him, and "Go on. Tell your news . . . and go."

No More Cheap Mustard for Me!

"What's the trouble now, Anne?"

"I made up my usual tried and tested Pickle recipe, but a friend of mine told me to use Bull Mustard, it was cheaper. I did. It spoiled the lot!"

"That's too bad, Anne. You'll stick to Keen's after this! It is the pure mustard, so you always know just how much to use and you need never waste or spoil anything."

KEEN'S D.S.F. MUSTARD

Made from seed grown especially in the Fens of England. The shells or hulls are crushed, all the refuse being in the inner part of the seed. A superior grinding makes the full flavor readily available. In original jars for a little over 10c.

Coleman-Keen (Canada) Limited
1000 Amburst Street Montreal, Que.

"All right . . . If you want it like this. But I warn you, you'd better send those men away and see me in private."

She scanned him even-eyed. There was some indefinable thing about him that convinced her that on this occasion at least he was telling the truth.

"Come then," she said shortly. The men stared after them as she led the way into the house and a little murmur arose that Red Thom guided. The moment they reached the office she turned shortly on him. "Well," she said: "What is it? To what do we owe the honor of this call?"

"Do you know where your father went?" he asked.

"Of course. To meet his partner, Mr. Gerald Keene, who came on the evening train."

"Right. I'll tell you where he is now . . . They all went to the Silver Dollar saloon. Your father, Crewe, that wrangler Stone and the man Keene. They had hot words there of some kind. The lights went out. There was a shot fired. When the lights came on again the man Keene was lying over the roulette table shot through the body and they searched everybody. They found a Derringer pistol that had been fired in your father's pocket. He was standing right by Keene . . ."

For just a fraction of a second Dustin shrank back from the light in her eyes.

"You liar . . ." Scorn ineffable rang in her voice. "To come here and tell me a thing like that . . . You mean to tell me that my . . . my father shot this Mr. Keene?"

"No . . ." He held up a delaying hand. "I mean to tell you that the Sheriff has got evidence that will send your father to the gallows for having shot Gerald Keene. I'm the only man in the world who can prove he didn't . . . Get me now? The first thing they'll search for is a motive. Why should Joe Carr shoot his partner? They'll find the motive in old Peter Vinton's will. The man Keene died a little while ago. You can verify what I say by telephone. Call up Doctor Epps. He's taken the wounded man to his house. By Keene's death, your father gets the other half of the Hour-glass. He owes me more than he can pay. That's the motive. The fact remains that I've told you the truth. The Sheriff has got proof that your father shot his own partner to get his share of the Hour-glass . . . That's part of what I've got to tell you . . ."

She swayed on her feet and her face, once red-and-white turned pale but the light in her eyes never changed.

"Call up Epps in Seco on the phone," he said.

She stepped to the wall-instrument, snatched the receiver and got the number. Dustin could not hear her face blanch and her lips quiver. Her free hand grasped at the wall for support.

"Then as I understand you, Doctor, my father is under arrest for . . . the killing of Gerald Keene . . . Is that right?"

Followed a buzzing again across the wire that her near voice cut.

"What? . . . You say Mr. Keene died a short time ago . . . Oh . . . I see . . ."

She turned away from the telephone and faced Dustin and her whole demeanor changed. She seemed to have shrunk and lessened but her eyes shone with an indomitable glow.

"He . . . Doctor Epps says you are correct . . . That my father undoubtedly shot Mr. Keene. He says Mr. Keene died . . . And . . ."

For the first time she broke down and sank into a chair and buried her face in her hands while her body shook. Dustin came over and stood by her and ventured to lay a hand on her shoulder.

"It may not be quite as bad as you think," he said.

"How? Not as bad as I think . . . I know Daddy never did it. Of course he didn't do it . . ."

"The Sheriff has evidence that he did," said Dustin. "They've established the motive. They found the man dead across the roulette table. Shot with a big soft-lead bullet from a Derringer pistol. They found Carr standing right by him and in his pocket was a Derringer pistol. It had just been fired and the bullet from Keene's body fitted it. Will a jury want more evidence than that? Use your brains."

She could not. They seemed atrophied.

"There's one way out," he said. His eyes sought hers but her gaze wavered and dropped. Some occult power told her what was coming.

"What would you give," he said. "If a man could be found who could refute all that circumstantial evi-

● Devil's Cake, one of the most delicious of the chocolate cake family is a treat to look forward to and a baking memory to look back on—when it's made the better. PURITY FLOUR way. As in all PURITY FLOUR products it has its own, distinctive high quality and flavor. It keeps fresh for days—the moist, even texture will fill your heart with pride. Decide now to use PURITY. Try it in all kinds of baking, whether bread, rolls, biscuits, cakes or pastry. The result will be a source of satisfaction to you and of pleasure to your family.

BEST FOR ALL YOUR BAKING

"Some one who uses peyotl," he said.

"All right. Who's that?"

"I only know one. . . . Peyotl Gregg and he ain't to be found at the Broken Spur."

"There's only one other place he can have gone. If he's not at the Broken Spur he must be here in Seco."

"We can probably find him down in the Mexican settlement," said Jameson. "That's the only place he can get his drug. Let's go there."

It took three hours but they finally dug Peyotl up, a drug-sodden wreck from the jacale of Pascual Mendez. He reeked of opium, that drink that has a special stink of its own, and they slammed him unceremoniously into the rear seat of Jameson's car.

"You question him," said Jameson. "Where did you get the pistol that you shot that man Keene with?" demanded Stone.

Miners Have Sentiment

One Rescued Tiny Apple Tree Growing Below Surface

In an Ontario nickel mine, 600 feet below the surface, miners found a tiny, stunted apple tree doing its best to keep alive with no more encouragement than the rays of a light bulb.

Evidently some workman's abandoned apple core had contained a seed that took root far down in the earth.

Instead of crushing the plant, the man who found it rushed to the surface called his fellow-workers, and after showing it to them, tenderly lifted the small tree and carried it to his home.

The English poet Gray wrote about flowers that waste their sweetness on the desert air. It might have been expected that that would be the fate of the apple tree. For who would expect to find sentiment and softness in a mining camp?

Perhaps it was the unthinking courage of the plant that appealed to those men whose fortitude is tested every time they go to their labors.

There is some hope for a world in which the most grinding of toil cannot crush the poetry out of a man's soul.

THE RHYMING OPTIMIST

By Aline Michaelis

TO A YOUTH

Never doubt that spring will come, Lacking not one flower; Song of thrushes, bees loud hum, All its age-old downer!

You are young, lad, and in youth Loss may seem Earth's ending; Later you will learn this truth: Hearts were made for mending!

Never doubt that spring will wear All of beauty's pulses; Primrose petals in her hair, April's ray surprise! However dear the thing Life from you has taken, Still the lark is on the wing, Still the rose will wake!

Remarkable Sentences
A sentence in a handbook of "Useful Russian Phrases for the Tourist" runs: "Good Heavens! Our position has been struck by lightning." This reminds us of an old French exercise book which contained the following remarkable sentence: "My little dog his beautiful hair, but I cannot eat this greasy soup."

The coils of many foreign nations are manufactured in the United States at cost.

France may guttail all overtime work.

Little Helps For This Week

"God is our refuge and strength, a very present help in time of trouble. Therefore will we not fear, though the earth be removed and though the mountains be cast into the midst of the sea." Psalm 46:1-2.

Though waves and storms go o'er my head, Though health and strength and friends be gone, Though joys be withered all, and dead, Though every comfort be withdrawn, On this my steadfast soul relies— Father, thy mercy never dies.

Your external circumstances may change, toll may take the place of rest, sickness of health, trials may thicken within and without. Externally you are the prey of such circumstances, but if your heart is stayed on God no changes or chances can touch it, and all that may befall you will but draw you closer to Him.

Whatever the present moment may bring, your knowledge that it is His will and that your future heavenly life will be influenced by it, will make all not only tolerable but welcome to you. Nothing can affect you greatly when you know that He who holds you in His powerful hand cannot change, but abideth forever.

Applications Falling Off

Not Very Many Patents Sought For New Inventions

According to figures of the United States Patent Office there has been a great falling off in applications for new patents the past few years. A noted inventor wonders why.

One reason may be that with so many men in the mechanical industries out of work they have lost contact with their work, and have had no occasion to think of ways of improving on what they are doing, or of inventing anything new. Another reason may be that modern machinery has reached such a degree of perfection that the scope for new devices is very much narrowed.

Until some new principles are opened up, the field of invention is nowadays limited. Perhaps the world needs a rest anyway from so much inventiveness. If thinkers had not been so restlessly inventive there would be fewer unemployed everywhere.—St. Thomas Times-Journal.

"He's been sitting there all day, doing nothing but wasting his time. How do you know?"

"Because I've been watching him."

The oyster is a useful food for treatment of nutritional anemia, since it contains almost as much iron and copper as liver.

A Dutch laboratory has come within five one-thousandths of a degree of producing absolute zero.

Australia's Wedding Gift
Carefully guarded and heavily sealed, a box containing two cups of Australian gold, the wedding gift of the Commonwealth of Australia to the Duke and Duchess of Kent, arrived at Plymouth, England, nearly three months after the ceremony.

Nervousness, dizzy spells, tiredness, headaches . . . Get rid of them this safe, natural and inexpensive way

Now you can banish constipation without the use of costly, habit-forming drugs. Doctors advise Quaker Bran—the natural coating of the wheat. Let it work with nature to promote normal, healthy bowel movement.

Remember, Quaker Bran is different from all prepared bran cereals. It is pure bran, uncooked—untreated—unaltered.

For these reasons it is definitely richer in mineral and vitamin content. There are many pleasant ways of eating this natural corrective. Mix it with your regular cereal each morning or make delicious muffins and cookies with it. Each package of Quaker Natural Bran contains a booklet of easy recipes for delicious bran dishes.

Strikers and Police Clash at Corbin

When Corbin Collieries Ltd. put a tractor to work to try and clear a road on Wednesday morning, strikers clashed with the police, in which several on both sides were injured.

Pickhandles, rocks and sledgehammers were used by the strikers, and one policeman was seriously injured by the sledgehammer attack. No shots were fired, and the battle lasted for about five minutes. Long distance telephone communication in the afternoon stated that the village was quiet. The injured were taken to Michel hospital. The strike has been in force since January.

Harvey Murphy, Unity League organizer, assembled over 200 strike sympathizers to proceed to Corbin, and they were held up about a mile this side of Crows Nest. Murphy at 7 p. m. stated he was waiting to bring up more men to proceed to Corbin. Inspector J. MacDonald of B. C. police, commanding the police on the strike area, stated if they attempted to get through he would be ready for them. A compromise was later effected whereby Murphy and nine men were allowed to proceed as a delegation to Corbin, on condition the rest dispersed, and at 11 p. m. they had returned to Blairmore. 48 police are on duty. All cars are stopped for questioning at Crows Nest and Michel.

E. L. Warburton, general manager of Corbin Collieries Ltd. states definitely no agreement will be made with the M. W. U. of C.

Of the five constables taken to Michel hospital, three were able to leave last evening. Constable McKay, broken right elbow, and Constable Aikman, fractured skull, were both resting. Other injured constables received first aid treatment at Corbin. Clare Grenache, Calgary, working for Contractor Garson on the tractor, and Lou Hiney also of Calgary, were in hospital with head and face wounds from being hit with rocks thrown by the strikers. Tom Uphill, M. L. A. for Fernie, went in by train last evening. He is a son working in Corbin.
